	<p>You <u>can</u> get there with a UTEC but the car will not run near as well as it would with an HKS Fcon Vpro but that is considerably more expensive. If you know Cody and Bri an than you know how well their cars run. Also, the Jim Wolf cams may be a *little* small for the amount of power the customer wants. Tomei's would be an additional \$300.00 or so.</p> <p>I guess you will have figured out by now that you will not get there on the stock heads/cams...</p>
